

Re: Great Western Landscape

I just wanted to take a few minutes out of my day and express my thanks to a fantastic contractor. Great Western Landscape has been working with Westland Construction, Inc. for 10 years. Our projects have varied from simple elementary school additions to entire city parks. Great Western Landscape has a highly skilled staff that conducts themselves professionally at every level. Through the years I have enjoyed honest and fair business practices in the office as well as in the field. Great Western Landscape installs high quality equipment and materials for a very competitive price. Each Foreman is intelligent and is capable of reading and understanding difficult plans. I would highly recommend Great Western Landscape for any landscaping needs. I have been fortunate to have Great Western Landscape on many projects over the years and look forward to many more!

Sincerely,
Trent Huntsman
Project Manager
Westland Construction, Inc.
